SEAMLESS SOLUTIONS

No tooling charges on standard products

A leading contract manufacturer of standard and custom deep drawn metal enclosures and stampings. Companies worldwide look to Hudson Technologies for:

- Huge selection of standard products in online catalog
- No tooling charges on over 15,000 standard shapes and sizes
- Modifications, finishes & value-add services
- Deep drawn prototypes to high volume production – over 130 presses from 1 to 500 tons
- In-house annealing & aqueous cleaning
- Green manufacturing – no chlorinated lubricants or solvents
- Custom products built to precision requirements
- Comprehensive project management
- Design assistance for manufacturability & reliability
- Highly skilled staff of engineers and tool & die makers
- Quality assurance, planning & inspection
- Stocking programs & supply chain management
- ISO 9001:2008 and ISO 13485:2003 Certified

Range of Sizes:

Diameter: 1/8" to 12" (3.1 mm to 305 mm)
Length: up to 12" (305 mm)
Material thickness: .002" to .187" (0.05 to 6.35 mm)

Shapes:

Rounds, Squares, Rectangles, Flange, MIL-T-27 & Asymmetrical Shapes

Materials:

Titanium	Aluminum
Cupro-Nickel	Mumetal®
Stainless Steel	Kovar®
Copper	Nickel
Aluminized Steel	Nickel Silver
Brass	& other alloys
Cold Rolled Steel	

When your technology depends on a precision metal enclosure or diaphragm, depend on Hudson Technologies

Automotive • Aviation • Aerospace • Commercial Battery • Implantable Medical Devices
Irrigation • Relay Cases • Semi-conductor • Mechanical Seals • Edge Welded Bellows
